Subject: Support Affordable Housing and the Olowalu Town Development

Aloha and thank you for your time in considering both sides to this very sensitive subject of rural development. I am born and raised on the island of Maui and stand as a 4th generational local here. I want to voice that if we do not create more affordable housing for our local families there will continue to be a families leaving and generations of children unable to find their way back or remain here. Let's support our working class local families and create a stable bright future for them. Let's keep Maui No Ka Oi. The people who live here create that! I support the affordable housing development in Olowalu. It's a beautiful location. Why should only the wealthy be able to live in our most desirable areas? Please vote in favor.

Mahalo,
Trisha
